

Notes:

- Only takes finals times into consideration as that was my data source (so this is more like finals records since records set in prelims are left out as I'm not sure how to access those... same thing goes for lead off legs in the free relays).
- Since Diving isn't fully scored out until the end of finals (when all 11 dives are complete), the progression is the actual state record progression.
- Doesn't include legacy distances for boys (ie. 150 medley relay, 220 free, 150 medley, 40 free, etc.)
- Doesn't include old breaststroke since nobody swims fly arms with a breast kick nowadays
